

# One call will get it there!

BBE — now expediting through Manitoba to the Kivalliq.  
**Anywhere! Any time!**

## The BBE solution!

Kivalliq customers no longer need to arrange to have their order trucked from Winnipeg to Thompson, shipped by rail to Churchill and then loaded onto an NTCL barge before it's sent to their communities. One call to BBE will get it there!

The North's leading logistics and transportation company's Winnipeg office will consolidate all those steps — a one-call solution.

And we'll even get it to you by plane if you need it sooner!

If you're a business, resident or with a government, you can benefit from BBE's one-call solution. Whether your order is from Winnipeg, Toronto, Chile or Chicago, we'll coordinate all of the details from source to site.

Since 1977, BBE has created a strong, reliable logistics and transportation network in the Western and Eastern Arctic. Now, the company connects the two with a central Canada network.
